Welcome Guide

## Meet the Nest Learning Thermostat

### Display

Turns blue when cooling and orange when heating.

### Status

Nest shows you Time-to-Temperature and if it's heating, cooling or using Airwave.

### Current temperature

Shows the temperature in your home.

### Target temperature

Shows the temperature you want to reach.

### Nest Leaf

Appears when you're saving energy.

### Sensor Window

Contains temperature, humidity, light and activity sensors.

## Explore Nest

Press the ring for the menu,  
then rotate to select.

**● ●**  
If you have heating and cooling, easily switch between them manually or automatically.

### Schedule

See the schedule Nest has learned from your temperature adjustments. If it's not right, change it.

### Energy

See how much energy you've used in the last 10 days and why.

### Settings

Choose options like thermostat lock and fan control.

### Away

Set Nest to Away when you leave to save energy while you're gone.

## Away from home

Connect Nest to Wi-Fi, then sign up for a Nest Account at [nest.com/account](http://nest.com/account)

With Nest's Web and Mobile apps, you can adjust the temperature, change your schedule, see Energy History and control multiple Nests.

We take your privacy seriously.

Nest's facts and figures.

## Your life with Nest

### Day 1

**Install & setup**  
Read our installation guide and watch videos at [nest.com/support](http://nest.com/support)

### Auto-Schedule

Nest will remember the temperatures you like and build a schedule. Teach Nest by turning it down when you go to bed or leave the house.

### System Match

Nest adapts to your system, whether it's forced air, heat pump or radiant.

Find even more detailed Energy History on the Web and Mobile apps.

### Energy History

See when you used heating and cooling and how your temperature changes, the weather or Auto-Away affected your energy use.

Going on vacation? Start saving money the minute you walk out the door by turning Nest to Away manually.

### Seasons change

When you switch from heat to cool or vice versa, Nest will learn a new schedule.

### Day 1

### Remote control

Connect Nest to Wi-Fi, sign up for a Nest Account on [nest.com](http://nest.com), and download the Nest Mobile app for your smartphone or tablet.

### Day 7

### Check your schedule

You can edit your schedule on Nest or with the Web and Mobile apps.

Changing the temperature just one degree can lower your energy use up to 5%.

### Nest Leaf

The Leaf appears when you choose a temperature that saves energy.

### Auto-Away

Nest automatically turns itself to an energy-saving temperature when you're away.

Save the most with Auto-Away by setting your Away "heat to" temp below 65° and your Away "cool to" temp above 80°.

### Day 30

### Energy Report

Your monthly Energy Report is packed with energy info and tips to help you save.

### Day 90

### Airwave

Airwave reduces AC runtime up to 30%. Airwave works in 80% of homes with AC.

### Heat + Cool

If you need to switch between heating and cooling often, choose Heat + Cool to make the change automatically.
